

formerly: FMC FoodTech
1700 Cannon Rd.
Northfield MN 55057

JBT FoodTech manufactures custom built products for the food service industry. When we are working on special projects or have emergency services and need products delivered anywhere in the country very rapidly, we count on Dominic Young and HVC Expedite. I can call on him on Saturday afternoon or Sunday mornings and he can still have products delivered a thousand miles away on Monday. His exclusive use vehicles ensure that our products arrive safely, undamaged and on time and without any problems. Dominic takes the time to make sure everything is strapped in and secured. HVC Expedite is half the price of air freight and often faster and easier to deal with.

A blue banner for EMSCO Electric Motor Supply Co. On the left is the EMSCO logo, which consists of an orange sphere with a white highlight and the text 'EMSCO' in white, with 'Electric Motor Supply Co.' in smaller white text below it. To the right of the logo, the address '4650 MAIN STREET FRIDLEY, MINNESOTA 55421' is listed, followed by 'PHONE: (763) 571-9005 • FAX: (763) 571-9184' and the toll-free number '1-800-328-1842'.

EMSCO carries industrial low-voltage electrical equipment and sells this product all over the nation. When a customer's plant is down and they are losing money by the hour, EMSCO - along with HVC-Expedite - can be very helpful in getting a plant back up and running. Whether it is Dallas, Detroit, Miami, Phoenix or Seattle HVC-Expedite is the right choice for our customers for "time" sensitive shipments.

We have worked with Dominic and his team now for several years and when it comes to keeping the customers happy... forget about it... he is the best in the industry. EMSCO looks forward to doing business with HVC-Expedite for many years to come.
