Cellular: (612) 281 - 4176

Dominic Young - Founder

High-Value Cargo Deliveries

Up to 7 pallets & 7,000lbs. from Upper MIDWEST to "lower 48" United States

"HIGH VALUE" means different things to different people.

For some, it is a small part for a machine that went down and is costing a plant thousands of dollars for every hour it is down.

For others, it is a "BLANKET WRAPPED" prototype going to a tradeshow in Washington, DC.

For most, it is a production failure that cannot lead to a delivery failure, so the freight requires AIR FREIGHT speed and service.

For a few, it is the knowledge that we are personally handling the product from pickup to delivery.

Call us and we can create a category for you!
