(866) HVC – 4656

**Hopkins, MN
55343 – 7418**

Cellular: (612) 281 – 4176

Dominic Young – Founder

High-Value Cargo Deliveries

Up to 6 pallets & 6,000lbs. anywhere in the United States – at ANY time (24/7)

"HIGH VALUE" means different things to different people.

For some, it is a small amount of valuable merchandise or secured data that needs to be handled discreetly.

For others, it is a "BLANKET WRAPPED" prototype going to a tradeshow in Washington, DC.

For most, it is a production failure that cannot lead to a delivery failure, so the freight requires EXPEDITED speed and service.

For a few, it is the knowledge that we are personally handling the product from pickup to delivery.

Call us and we can create a category for you!

C: 612 – 281 – 4176

I can honestly say that my personal truck with "Bump Stop" and the extra springs I added for box height allows my truck to ride MUCH smoother than "AIR-RIDE". I can tell from the way things have not "bounced" out of my storage crates, my pallet jack has not moved or raised itself and everything (blankets, etc.) is where I put it.

Should you ever need to move fragile or vibration-sensitive items, my truck is a better choice than "Air Ride".

If there's ever a chance for me to help you with expedited freight issues, please give me the opportunity to at least give you a quote.
